INDEX TO VOLUME IV

Ability to support education:
and Clark's formula, 60, 62, 64, 65
and density of population, 67
and effort, 48, 49, 50, 51, 52, 54
and school costs, 239
and school efficiency, 45, 46
and support given education, 39, 40, 41, 42, 44, 71
cost of living, 68, 69
definition of, 29, 61, 70
effect of percent of children in population, 41
factors affecting, 61, 66, 69
inequalities in, 35, 209, 210
in 1880 and 1922, 58, 59
in 1900 and 1922, 57
measures of, 29
of states, 29, 30, 36, 37, 64, 65, 67
of the nation, 239
permanency of differences in, 55, 60, 70, 71
rank of states in, 29, 30
also *see* School support

Administration:
organization for, of a modern school system, 192, 193
state *vs.* local, of teachers' retirement systems, 146

Agricultural depression: 240

Agricultural products:
increase in volume of, 246
value of 240, 241, 243

Attendance:
bibliography, 208
compulsory: *see* Compulsory attendance
increase in, 171, 201, 256
increase in and school costs, 250
non-attendance, figures of Federal census 1920, 209, 254

Automobiles: expenditures for, 240, 241

Banking power of United States: 1924, 244

Bibliography: 77, 157-60, 190, 191, 194, 198, 201, 208, 217, 221, 224-6

Boards of education:
bibliography, 221
business managers of, 219
election at large *vs.* ward election, 219
elective *vs.* appointive, 218
independence of, 219, 220
personnel of, 221

Building construction: (also *see* School buildings), 240, 241, 244

Carnegie Foundation, twentieth report quoted: 117, 146

Certification, principles of: 189

Children:
effect of percent of, in population, on ability to support education, 41
number of, aged 6 to 13, 24
number of, by states, 24, 64
also *see* Population

Compulsory attendance:
laws effecting employed children, 204-205
laws effecting employment of children, 204
also *see* Attendance

Congressional hearings on:
education, 1, 82

Coolidge, President: quoted, 169 and 255

Corporations:
amount and definition of surplus of, 247, 248
net income of, 248

Costs: *see* School costs, School support, Retirement costs, Government expenditures

Current income: *see* Income

Curriculum:
bibliography, 198
characteristics and content of the new, 197
contributions of research to, 197
limitation of by legal enactment, 195
teachers' part in construction of, 198

Density of population: *see* Population

Department of Education and hearings on, 1

Dollar: depreciation in purchasing power of, 244, 250, 251, 253

Economic ability to support education: *see* Ability to support education

Economic power:
and effort to support education, 48, 54
as indicated by index of economic resources, 20
competition for share of, 61
factors influencing use of, 3
income as an index of, 3, 5, 11, 12
increase in, 243
of states compared, 3, 20
proportion of devoted to education, 239, 240, 241
real estate as a measure of, 4
wealth and income as measures of, 12, 17
wealth as an index of, 3, 4, 6, 12
also *see* Income, Wealth, Index of economic resources

Economic resources: *see* Economic power

Economy in public expenditures: *see* School costs

Education:
as civilization's life insurance, 169
cost of: *see* School costs
quotations advocating restriction, 170
productivity of, 171
responsibility of state for, 209
state constitutional provisions for, 209
also *see* Rank of States, Schools, etc.

Educational attainment:
and ability to support schools, 45
higher in rich states, 48
in the United States, 242
of states, 47

Educational efficiency:
and ability to support schools, 45
and retirement systems, 115, 117
indications of, 45, 46
of states, 46
superiority in, of rich states, 45

Educational obligations:
age groups as measures of, 23, 24, 25, 28
effect on school costs of, 23, 26, 27
of states, 23, 24, 25, 26
population as a measure of, 23, 24

Effort to support schools:
and ability, 48, 49, 50, 54
and private and parochial schools, 51, 52
definition of, 48
in rich and poor states, 48, 49, 52, 54
also *see* Ability to support education

Enrolment:
increase in, 171, 201
percentage of in average daily attendance, 205, 206

Expenditures: *see* School costs

Exports and imports, increase in value of, 244

Federal: *see* National

Federal aid for education: 1, 71
bibliography, 84, 85

Friday, David, quoted, 239

Government expenditures, 240, 241, 255, 256

Illiteracy:
figures of 1920 census on, 209, 254

Income:
accuracy of estimates of, 5, 7, 17
and wealth, 12, 14, 15
as measure of economic power, 5, 10
average, 8, 10, 14, 239
current, 5, 7, 8, 11, 13, 239, 242, 244
cyclic factors influencing, 7, 10
earned, 12
from investments, 13
in agricultural and industrial states, 17
meaning of, 5
method of estimating by states, 7
national, proportion of paid for insurance, 118
of states, 11, 19, 74
percent of to education, 49, 53
per child, 29, 30, 33, 36
ratio of current to total, 7, 8, 9
ratio of to school costs, 240, 241, 244
ratio of wealth to, 13, 14, 15, 16, 17, 18
total, 5, 7, 8, 13
also *see* Wealth, Economic power

Income and outgo of representative teacher retirement funds: 144, 145

Index of:
cost of living, 69
wholesale prices, 242

Index of economic power:
formula for, 17
of states, 19
percent to education, 49, 53
per child, by states, 34, 36
also *see* Economic power

Inequalities in:
ability to support education, 209, 210
state aid, 211

Insurance:
in force, 1924, 118, 247
premiums in 1924, 118, 247
proportion of national income paid for, 118

Jenyns, Samuel, quoted, 170

King, Willford: quoted, 169

Luxury expenditures, 241

Mandeville, Bernard: quoted, 169

Manufactured products:
increase in volume of, 246
value of, 240, 241, 243

National Bureau of Economic Research, 5, 12
accuracy of income estimates of, 5, 7
economic position, 60
quoted on permanency of states' economic position, 60

National Council of Teachers Retirement Systems:
report of February, 1926, on reciprocal relations, 149-50

National Education Association: plan of for the "entire profession at work on its problems," 231-2

National government:
and public education, 1, 71
and school support, 1, 71
property of, 4, 5, 72

National Tax Association: model plan of state and local taxation, 4, 17

New York City Retirement Fund, 153

Ordinance of 1789, 1

Organization:
administrative, of modern school system, 192, 193

Parents:
suggestions for, from a city superintendent, 224.

Parents and Teachers, Congress of:
growth in membership in, 1912-26, 223, 225

Parochial schools:
effect of on measurement of effort to support schools, 51, 52
estimated cost, 51

Pensions: *see* Retirement

Physical deficiency of drafted men, 254

Population:
and ability to support education, 61
as measure of educational load, 23, 24, 26
by states, 64
density of, and ability to support schools, 28, 66, 63
effect of varying percentages of children in, 26, 27
increase in, 247, 252
ratio of adults to children in, 64
also *see* Educational obligations

Private schools:
effect on measurement of effort, 51, 52
estimated cost of, 51

Production: increase in volume, 246

Property:
increase in value of tangible, 246, 247
total tangible and school, 240
valuation per pupil of real, 210
value of tangible in United States, 239
also *see* School property

Rank of states according to:
ability to support education, 36
deviation in rank, 21
economic resources (average annual current income plus 1/10 of wealth), 20
expenditures per child of school age, 1922, 1918 and 1919, 40, 42, 43
expenditure (non-salary) per pupil in average daily attendance, 1922, 1918, 1919, 40, 42, 43
high school attendance, percentage of total in 1922, 46
income, current, 11
income, current per child, 30, 33
income (average current 1919-21), plus 1/3, 1/5, 1/10 and 1/20 of wealth, 19
income, ratio of current to total, 9
income, ratio of total to wealth, 16, 18
income, total per child, 30
length of school term in 1922, 46
magazine circulation, 47
percentage of population, age 6-13, 25
salaries, average annual paid teachers in 1922, 1918 and 1919, 40, 42, 43
school attendance, average number of days per pupil enroled in 1922, 46
school property, average value per pupil enroled in 1922, 40
teachers, percentage of who are normal graduates, 46
wealth (tangible estimated) in 1922, 6
wealth per child in 1922, 30, 31, 37, 38
years of school life per pupil, average number of, 46

Retirement (pensions):
administration of:
according to Vermont law, 151, 152
State *vs.* local, 146
advantages of sound system of, 114, 115, 116, 117, 118
allowances:
in case of death, 104, 105, 154
in case of disabilty, 102
and length of service, 114, 147, 148
and poverty in old age, 114, 119, 120
and school costs, 116
annuities:
amount of, 103, 110
and teachers standard of living, 103
maximum provided by Federal Government, 118
Associated Press, provisions for, 117
bibliography, 157, 158, 159, 160
Carnegie Foundation, twentieth report of, 117, 146
committee of One Hundred, 1924 report of, 97

Retirement (Continued)
contributions:
amount of public and teachers' fixed by organic act, 112
return of, in case of early retirement, 100, 101
costs, shares of teachers and public in, 109, 111
educational efficiency, promoted by, 115, 117
Federal Act of 1926, 117
guaranties to public and teacher provided by, 104
income and outgo for state retirement funds, 14, 15, 144, 145
individual accounts, 106, 153
membership, 98, 147, 151, 153
Metropolitan Life Insurance Co., provision for, 117
National Council of Teachers Retirement Systems, report on reciprocal relations, 149, 150
New York City Retirement Fund, 153
New York Stock Exchange, provision for, 117
Organic Act, contributions fixed by, 112
past service, credit for, 108
relation to teachers' salaries, 114, 147, 148
report of National Education Association, 1926, 97
sinking fund, importance of, 108
superannuation in employment prevented by, 114, 115
teachers' rights under old system, 107
teaching profession advanced by, 114
Vermont State Teachers' Retirement System, 151, ff.
Western Clock Company, provision for, 117
World's Work, quoted on, 117

Retirement laws:
of California, 147
of Connecticut, 147, 149
of Illinois, 147, 148
of Michigan, 148
of New Jersey, 147, 148
of New York, 147
of Ohio, 147
of Pennsylvania, 147, 148
of Vermont, 151, 152, 153, 154, 155, 156

Retirement Legislation:
based upon sound business principles, 130
controversial issues in the field of, 146, 147, 148, 149
education of public and teaching profession necessary for, 120
expert advice and technical data needed as basis of, 120
professional advancement promoted by, 120
roll call by states as to plans affecting, 126, 127, 128, 129, 130
teachers' interest in, 119, 120, 121
teachers' professional duty to support, 120
teaching efficiency increased by, 119

Retirement Systems:
and the Federal Government, 117
and insurance for old age, 118
and length of service, 115
and professional advancement, 114
and school costs, 116
and teacher turnover, 115
and teachers' salaries, 114
and teaching efficiency, 115, 119
arguments in favor of establishing, 189
directory of local and state, applying to certain classes of cities, 125
directory of state-wide and territorial, 124
fundamental principles of, included in 1924 report of Committee of One Hundred, critically reviewed, 97, 113
fundamental principles of, included in 1924 report of Committee of One Hundred, percent of people questioned who accepted each, 99
fundamental principles, included in 1924 report of Committee of One Hundred, suggested extension of, 113
in private industry, 117
interpretation of tabular statement of main provisions of eleven, 131, 132, 133, 134, 135
list of those in effect, 1926, 122, 123
membership in, 98, 100, 147, 151, 153
main provisions of eleven, tabular statement of, 132-43
states without, 187

Russell, James, E.: quoted, 183, 195

Salaries:
as factor in determining amount of teachers' contributions to retirement funds, 147, 148
low level of, partly compensated for by retirement provision, 114
median, of administrators and supervisors, 180-87
median, of elementary and secondary teachers, 182
median, of elementary teachers in rural and urban sections, 181
median, of elementary and secondary principals, 183
rural teachers, 184
yearly living wage of professional man and family, 186

Salary schedules:
essentials of, 186
one proposed for Chicago, 187

Savings accounts:
increase in amount of deposits in, and number of, 247, 248

School:
importance of in the Republic, 169, 241
of forty years ago and today, 172, 173
also *see* education

School and home: 222, 223, 224

School boards and committees: *see* Boards of education

School buildings:
bibliography, 201, 202, 203
common defects of, 201
essential qualities of, 200
number of, by states, 203

affect of war on, 255, 256
and ability of the nation to support education, 239
and business profits, 257
and economy, 255, 257
and increase in attendance, 250
and taxation, 257
as insurance for America's future, 170
by states, 1880 to 1922, 76
compared with school accomplishment, 171
economic effect of increase in, 242, 243, 244, 245, 247, 248
economy in, 256, 259
effect of retirement systems on, 116
for public elementary and secondary schools, 239
increase in, 253
in teachers' colleges and normal schools, 176
per unit of service rendered, 250, 251, 252
proportion of, from state sources, 211
ratio of, to wealth, 240, 242
ratio of total, and of public elementary and secondary, to current income, 1924, 240, 242
total, 1923-24, 239
trend of, 251, 254

School equipment:
bibliography, 217
also *see* School costs, School revenue, etc.

School property:
ratio of value of to value of total tangible property, 239, 240
value of, 1924, 201, 239
value of, public elementary and secondary, 239, 240
value of, total and average per pupil enroled, 202

School revenues:
increase in essential to progress, 214
sources of: *see* Taxation

School sites, size of, 199

School support:
arguments for adequate, 174
expenditures for, by states, 1880 to 1922, 76

School systems:
essentials of modern, 175

School term, length of, 205, 206, 207
bibliography, 208

School, consolidated, 201

Schools, rural, 201

Security issues: increase in, 245

State aid:
bases of distribution of, 212, 213, 214, 215, 216
inequalities in, 212, 214, 215
state fund essential, 211

State retirement systems: *see* Retirement, etc.

Summer schools:
attendance, 227, 228

Suzzallo, Henry, quoted, 170

Taxation:
and school costs, 257
justification of universal, for public education, 169
new forms recommended, 214
of property, 215

Teachers:
employment of, 178, 180
growth of, in service, 187, 227, 228, 229, 230, 231, 232
in colonial days, 175
men, percent of, 185
also *see* Salaries, Training, Certification, Retirement

Teachers' colleges and normal schools: costs per student, 178

Teachers' meetings:
characteristics of, 229, 230
outcomes of, 230
purposes of, 227, 228, 229
suitable topics for, 230, 231

Teachers' salaries: *see* Salaries

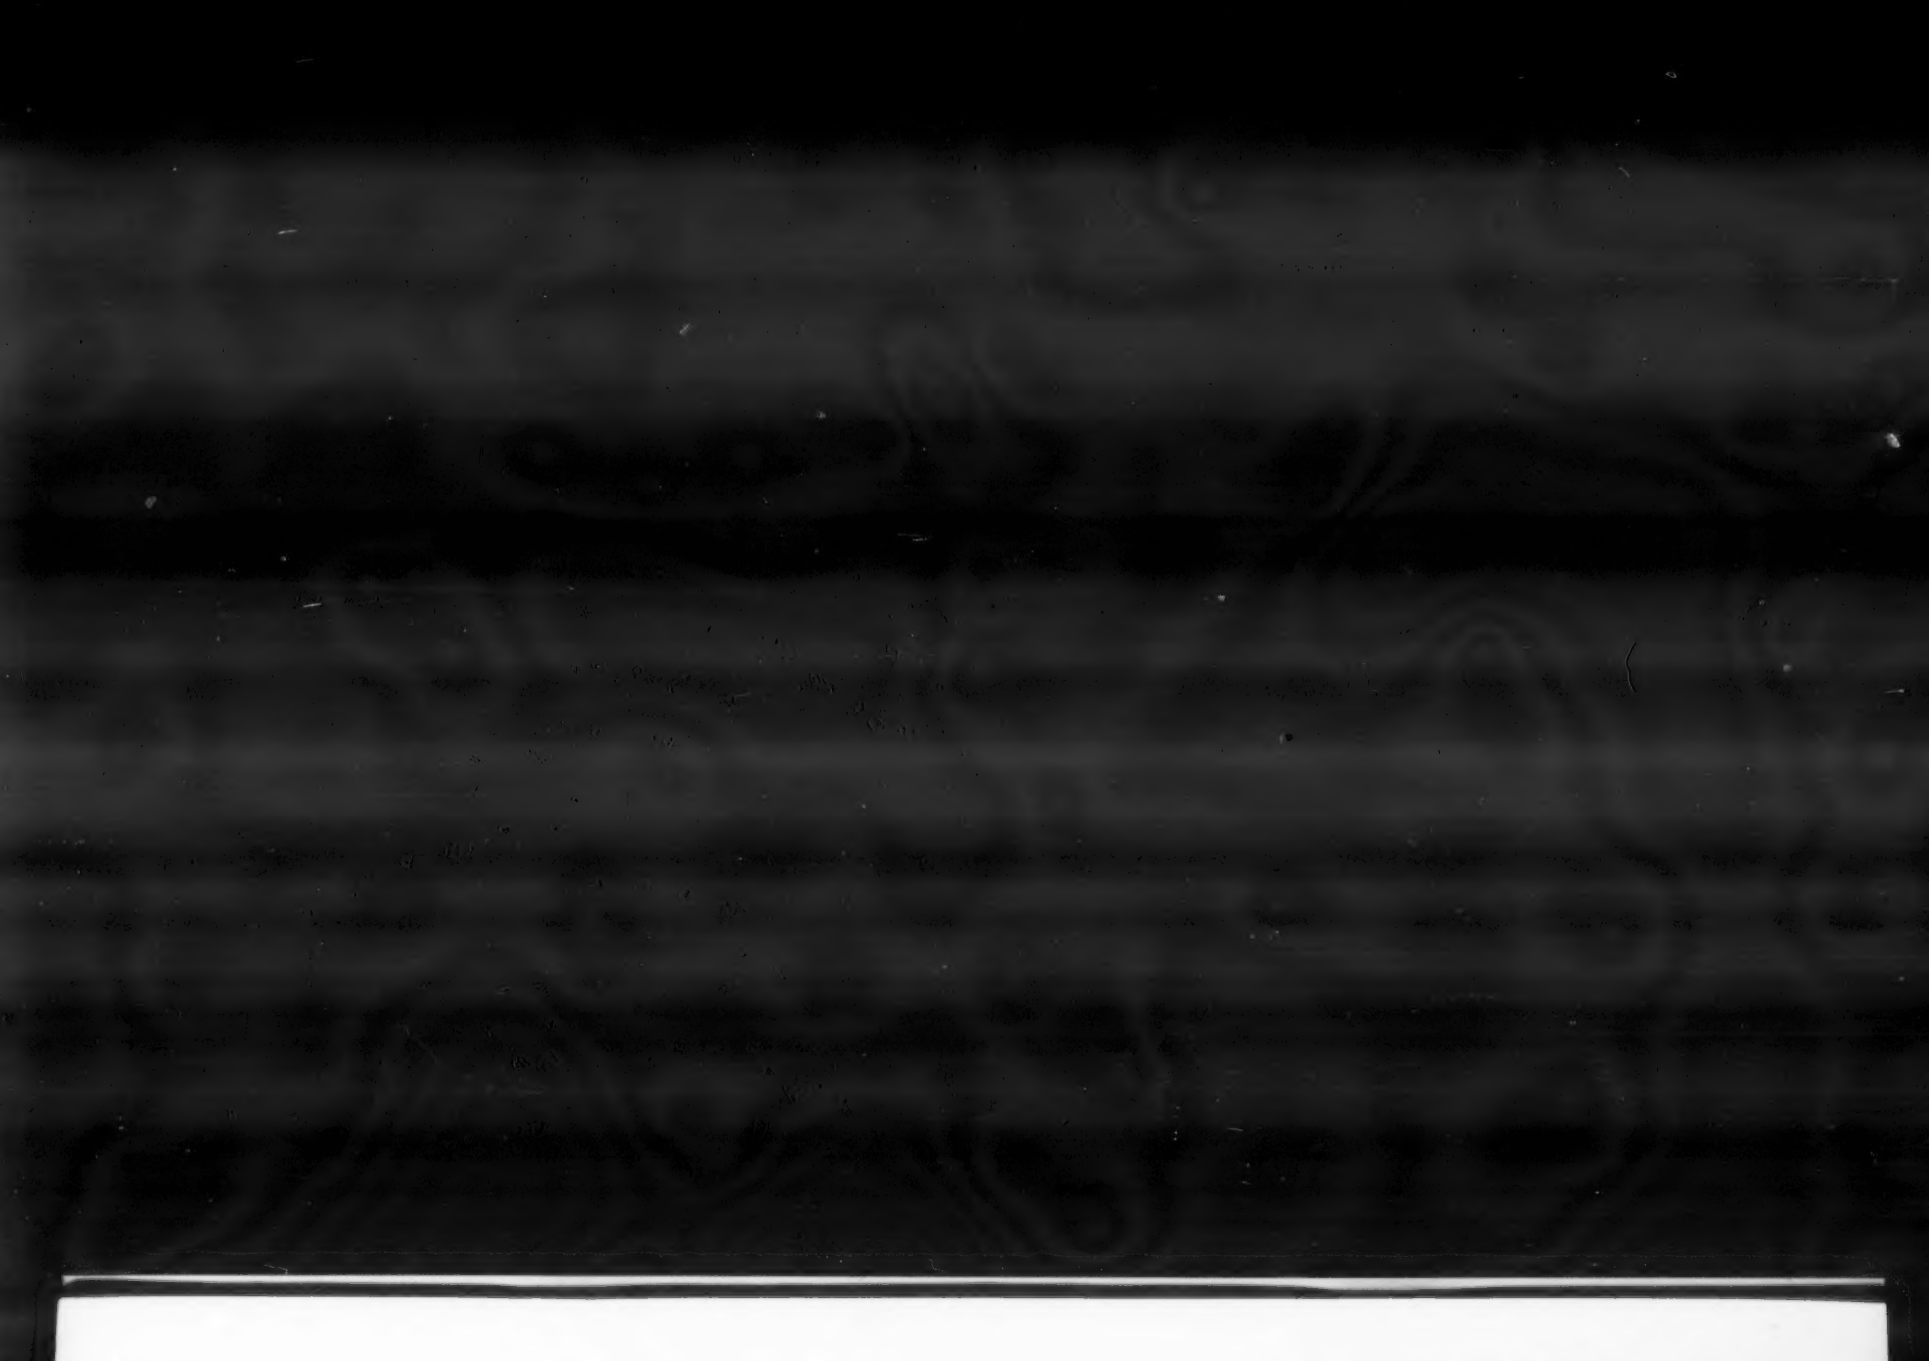
Teacher training: 175, 176, 177, 178
also *see* Teachers

Tenure:
characteristics of satisfactory program of, 180

Wages: *see* Salaries

War costs, 256

Wealth:
accuracy of census of 3, 17
and income, 12, 13, 14, 15
and tax-paying ability, 3
census of, 3
in agricultural and industrial states, 17
of states, 3, 4, 5, 6, 19, 72, 75
per capita, 10
per child, 29, 30 31, 32, 36, 55, 56, 57, 58, 209, 210
per child in rich and poor states, 32, 56, 57, 58, 59
ratio of wealth to income, 14, 15, 16, 17, 18
value of tangible (1800, 1900, 1912, 1924), 242, 247

Wells, H. G., quoted, 182


World's Work quoted, 117
